REPLACE ANTIQUATED CULVERT — This week the Bethel Highway Department has been replacing the old wood and stone culvert that carried the flow of Sanding Brook beneath Main Street. On the left is a Main Street storm drain. From the point where it enters the concrete culvert, the new pipe will extend up-stream about 200 feet.

ONE INJURED — A Portland man was injured when his car rolled over on Route 26, last Saturday morning near the home of Lawrence Bailey, Gilbert Pond, 60, was taken to the Stephens Memorial Hospital, Norway, and later transferred to the CMG Hospital in Lewiston, where he was treated for multiple bruises. He was released Sunday.

According to reports, Mr. Pond was travelling from New Hampshire to Portland in a southerly direction when he apparently did not see the blinker signal on a truck ahead of him, operated by Chris Bailey. The Pond vehicle sideswiped the truck and rolled over. The 1968 sedan was demolished.

Investigating was State Trooper Ralph Sarty assisted by Oxford County Deputy Sheriff's Robert Wood and Joseph Smallwood.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

Parents of children who ride bicycles on the streets should check to see if the bicycles have lights or reflectors on them. As the days grow shorter it is becoming quite noticeable that many do not have any equipment to warn motorists they may be approaching someone riding along the street. Our Police Officer is very concerned for the safety of the young people who continue to use their vehicles even after being spoken to about the situation.

The ordinances specify a light must be used but a reflector serves the purpose better than not having any warning equipment.

We expect we can get the tax bills sent in the next three to four weeks. Except for some minor details the Assessors have completed their work. We are now totalling the books to get the valuation, then a tax rate can be established.

The problem with the drain across Main Street is being corrected this week. It has been discovered the trouble was at the intersection of Main and Philbrook Streets. There is a cement culvert under Main Street that is in very good condition. We are replacing pipe under Philbrook Street to take care of the situation.

FREE IMMUNIZATION CLINIC FOR GERMAN MEASLES TO BE HELD AT BETHEL SEPT. 20

On Sept. 20, the Rumford area joins the campaign to protect expectant mothers against one of the most feared killers and cripplers of unborn children, German measles.

Clubs in Rumford, Bethel, and Dixfield will offer vaccinations to preschool children between the ages of one and five. This project is sponsored by Rumford Community Hospital with the cooperation of the Department of Health and Welfare and the assistance of the area public health nurses.

Bethel's clinic will take place on Sunday, Sept. 20, from 1:00 p. m. to 3:00 p. m. at the West Parish Congregational Church.

In recent years German measles has probably affected more children than have scarlet fever, polio, regular measles, chickenpox and mumps combined. Infants and young schoolchildren from kindergarten to fourth grade are the most common spreaders of the disease.

Mass immunization of children, then, is crucial to the success of the campaign. In Maine, these efforts are centered around school age children with the hopes that they may eventually in turn protect preschool children.

Rumford is pioneering in its approach to this mass preschool immunization.

German measles is usually a mild, easily treatable disease. But when continued on Page Five

GREENWOOD CITY

— Mrs. Colista Morgan, Correspondent —

Our year has already moved well into August. Some refer to it as the busy month. The heat rises from the roads; benches are crowded, and cars race past. There is haze upon the hills and dust upon the drooping leaves. But there is still much to enjoy.

Four of us took a ride into the reaches of the White Mountains this week. In this high and open theatre one can look and let his thoughts run.

To millions of people mountains are a fascination, a challenge, or an exhilaration. It is hard to tell why. Is it because they seem to have life with moods of pallor, anger, indifference, benevolence; to sometimes draw near then again with draw to a far distance? They are hard to describe.

We give them names but none is descriptive. Each is disappearing when you stand breathless in the mountain's sky-high company.

Gazing up at Mt. Washington and others of the range the sheering effects of the wind could be seen or places swept clean by scouring blasts.

The vicinity is wonderful, wild, demanding, and rough. We watched the weaving line of the road as cars moved on it to the top; while the "put" of the train rose against the sky.

This is a section where mountains march along the horizon; the roads curve and dip and climb.

To drive through or hike here is unforgettable even though the scenery wasn't new. Every minute was packed with wonder of the superb landscape. This was a pure mountain day: warm, calm, and immeasurable. Deep shadows lay in the valley while high up it was radiant with light from the blue sky to the low valley; a lovely blend.

At Ellis Falls it was readily cool and how delightful, was the water music. Here was an eye catching development and nicely kept in every way.

At this time the river was unusually low but from high up water burst forth as from some throbbing mountain heart. We watched the whiteness, like new fallen snow, rushing down with amazing velocity. Standing near we received in our upturned faces fine spray of "water-dust" as it hurried to meet the clear pool beneath, where it mingled and lost its identity.

It was a day pleasantly spent and from the philosophy of John Muir: "The mountains are fountains of men as well as of rivers, of glaciers, of fertile soil" — also "all the uppers accessible to mortals there is no uppers comparable to the mountains".

Toots Mills returned to Shapleigh on Sunday after a week with her aunt, Colista Morgan.

Fay and Ann Holt, Tonda Mills, and Colista Morgan were in Lewiston on Tuesday.

Mr. and Mrs. Robert Hayes left for New York on Friday. Their two grandsons who have been with them two weeks returned home with them. They are the sons of Mr. and Mrs. Erwin Hayes.

David Holt returned home this week after a visit with his brother, Robert, and wife in Bangor.

Several from here visited the Art exhibit at Yaggar during the time it was on display. Fay Holt had several paintings and one "Sarkona".

Christian Science
Radical reliance on God's all-power which enabled Christ Jesus to heal physical, mental and social ills is attainable today by people of all nations and races and is explained in the Lesson-Journal on "Christ Jesus" to be read to all Christian Science churches on Sunday, Aug. 30.

One of the chapters from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, Discoverer and Founder of Christian Science reads:

"In healing the sick and sinning, Jesus demonstrated the fact that the healing effect followed the understanding of the divine Principle and of the Christ spirit which governs the corporeal Jesus. For this Principle there is no dynasty, no ecclesiastical monopoly."

The apostle Peter is quoted as authority for relying on the spiritual understanding of God taught by Jesus: "According as the divine power hath given unto us all things that pertain unto life and godliness, through the knowledge of him who hath called us to glory and virtue."

30 SECONDS WITH THE NAZARENE HIS YOKE

"Our yokes must fit well," the Carpenter said. As he bent beneath his task, "For the people trust that my yokes will be Worth all the price that I ask."

Each one who came and purchased a yoke Was as pleased as he could be. For the yoke was made to exactly fit The form of the wearer, you see.

Today He fashions the yoke that we wear— It fits just perfectly right, The Master knows for whom it is made; It feels both easy and light.

The price that He asks is never too large; It's just your old burden of sin. Exchange it right now for the yoke that He gives.

What a rest it will bring you within! His yoke does fit well; I have found it so— A work of infinite care.

So uniquely mine, so beautifully made— It's the one I'd have chosen to wear.

The Nazarene Preacher

Mail, 11:29 "Take my yoke upon you, and learn of me; for I am meek and lowly in heart; and ye shall find rest unto your souls."

NATIONAL GRANGE MASTER

continued from Page One
"Big Things" happen, and happen successfully.

After a lovely supper prepared by these same handful of dedicated ladies and a short opening, the meeting was turned over to Lester Horton, acting as Lecturer, and the following program was presented:

Openings Songs by all, Address of Welcome by Lester Horton, several musical selections by Charlotte and Irving Cole of Greenwood, a most delightful reading by Sister Amy Thompson (one of the ladies mentioned earlier), several wonderful

Ten songs were sung by John Flaherty of Portland, a reading by Mark Mills of Bryant Pond, and a most amusing one-man skit by Chester Hayes of Shelburne, N. H. After Mr. Hayes finished, Mr. Horton introduced Maynard Dolloff who, after making a short speech on behalf of Governor Curtis, introduced the National Master, John Scott. Mr. Scott told a few humorous stories and then gave a short speech about the National Grange in Washington, what it has done, what it is doing, and what it plans to do in the future.

The Grange was closed in form and all adjourned to the dining room for coffee and punch where most everyone had the opportunity to chat with Mr. and Mrs. Scott and Mr. and Mrs. Dolloff. Everyone appeared to have a most enjoyable evening.

The meeting was presided over by Round Mountain's Master, Mrs. Leah Deagan, with members from other subordinate Granges within the Oxford Pomona (filling the rest of the chairs). Although only a small Grange, Round Mountain certainly was the scene of a mighty big show.

CANCER MORTALITY RATE IS UP — AND DOWN
Down in women, due to the dramatic reduction in cancer of the uterus and up in most due to the rapidly increasing cancer of the lung.
The Pap Test, which uncovers cervical cancer at an early stage before it has begun to spread, is the primary reason for overall decline in the cancer death rate among women. When this cancer is diagnosed early it is almost 100% curable. On the other hand, cancer of the lung has increased more than 15 times over the past three decades. It is considered a largely preventable disease. Has your physician x-rayed your lungs recently?
